

# Rosary

## marissanadler

I finally found a way back into your stare  
And when I took you back you told me I was always there  
    Then you close your eyes and hide inside your head  
    And when you run away you told me I was better then  
        Said well, Rosary, we can find a way around  
    Even if you run away, I will find a way to hold you around.  
        We said let's go away to a place we thought we left  
    Where we can close our eyes and then pretend that we were kids  
        And if I fall away, you'll be my guiding eyes  
        Even if we run away, we'll find a place to hide  
        You said, well, Rosary, we can find a way around  
    Even if I run away, I will find a way to hold you around  
        Said, well, Rosary, we can find our way around

Even if we run away, we can find a way to hold you, hold you down  
    Hold you down.  
        Even if you run  
        Even if you run  
    They found me in a hole behind your house  
    A little dusty, shaken up, and hollowed out  
    I'll follow you to make sure you got home  
    Then I saw you had someone to hold you,  
        I was lost.

I said well, Rosary, we can find our way around  
    Even if you run away, I will find a way to hold you around  
        Said, well, Rosary, we can find a way around  
    Even if you run away, I will find a way to hold you, hold you down.
