Annihilator

save me, save me
take me, take me
to another place
i dont wanna see your face anymore
you try harder to annoy me
to creep under my skin
slowly destroyin
the end of me it begins
something bulding up inside
a rage I've never known
God help me
Please Help me
I'm loosing control
Save me
Take me
to another place
dont wanna see your face anymore
i just want in a cold way
hate shame and degrade me
i gotta get you out of my head
for the abuse that you gave me
i think i'd rather be dead...yeah
something bulding up inside
I hope you'll never know
God help me
Please Help me
I'm loosing control...yeah!!
Save me
Take me
to another place
dont wanna see your face anymore no
Save me
Take me
to another place
I dont wanna see your face anymore no
SNAP...It's time to end the nightmare
and put you behind.
Save me
Take me

what a big disgrace
I don't wanna see your face anymore no
