

Judge Jury and Executioner

Atoms for Peace

Don't worry, baby
It goes right through me
I'm like the wind and my anger will disperseThin persecutors
Your twisted whispers
A horned reptile that is crawled upon the earthI went for my usual walk
Just tell it like it is
Tell it like it was
Judge and jury, executioner
Judge and jury, executioner
Judge and juryWhen darkness follows
And no tomorrowsIt's all been decided
All spies deceptive
All bouncing voices down the echo chamberDon't worry, baby
It goes right through meI went for my usual walk
I went around the block
I just can't talk or reason with my executioner
Judge and jury, executioner
Judge and juryBeen wasting trails
You talk in layersI went for my usual walk
Don't worry, laugh about
Just can't talk or reason with my executioner
Judge and jury, executioner
Judge and juryDon't worry, baby
It goes right through me
I'm like the wind and my anger will disperse
