

Count On Me (for Nothing)

Forever The Sickest Kids

I was just a shoulder you could cry on
You ruined my favorite shirts
I write my favorite songs about you
They'll never make the record

When you highs are low
and your ups are down
I'll be nowhere to be found
Tell me babe who's laughing now?

When your yes and no
And your fire is cold
You're nothing but skin and bones
Formerly so beautiful

Out with the old
In with the new
I can do better than you

If your love don't stick
Then please don't stick by me
And if your heart's untrue
Then please don't lie with me

And if your love don't count
Then you can count on me
For nothing, for nothing

I'm sitting by my phone
2.00 AM you should be home
I'm cutting patterns in the floor

I'm in it for the win,
But I'm losing all my friends
Chasing you is like chasing the wind

When your hugs are shrugs
And your kisses are curses
I'll be nowhere to be found

Tell me babe who's laughing now?

When your calm is crazy
And your clarity's hazy
You're nothing but skin and bones
Formerly so beautiful

Out with the old
In with the new
I can do better than you

If your love don't stick
Then please don't stick by me
And if your heart's untrue
Then please don't lie with me

And if your love don't count
Then you can count on me
For nothing, for nothing

Alright!

If your love don't stick
Then please don't stick by me
And if your heart's untrue
Then please don't lie with me

(Come on! Clap with me! Clap with me!
Clap those hands! Clap those hands! Alright!)

And if your love don't count
Then you can count on me
For nothing, for nothing
