

# A Mind To

Clint Black

Now I'm not talking tough, telling the truth ought to be enough  
I've had my share on the darker side  
Sitting and starring at a TV screen, racking my brain over all the things  
If I'd just been there I could have tried  
Things to do I can't help but think of more  
I could fill my life without ever leaving home  
I could see the Seven Ancient Wonders of the World  
And even build a few more of my own (If I had a mind to) Quit my job never mind the pay, maybe go figure out  
the CIA  
Chase the paper and pass the bar, show Iacocca how to build a car  
Jump up and run a three minute mile, sit around and watch my baby smile  
That's what I might do , if I had a mind to No, I don't wanna blow my horn, no telling how many souls I've worn  
And what kind of shoes, when I had shoes  
I'm still losing a bridge or two, but the troubled water's gonna run on  
through  
You can't always win, but you can always lose  
But I don't turn my head for things that pass me by  
And I'm gonna have a look around  
I could gather all the diamonds in the sky  
Hold every one and never leave the ground, If I had a mind to Fly through the eye of a hurricane, freeze my body  
like David Blaine  
Be the first to find life on Mars, go up and sell a few candy bars  
Climb a rainbow and kiss the sun, walk on the moon when the day is done  
That's what I might do, If I had a mind to  
Somewhere someone's doing everything I've said  
I don't have to do anything, I could do it in my head  
If I had mind to Sail away and be Jacques Cousteau, or the Crocodile hunter on a TV show  
Be the king of the one night stand, front the Coral Reefer Band  
Ski Colorado where there ain't no snow, plant a tree and watch it grow  
That what I might do  
Go out and buy me a suit and tie, go to work everyday and be a regular guy  
Smoking big cigars all day, be the President of the USA  
Get a tattoo and bleach my hair, open a window and breathe the air  
That's what I might do, if I had a mind to
