sometimes i forget

evan morris

i get so busy and i shut you out
and you don't have a clue what that's about
you're probably thinking that i'm getting mad at youi should take the time to just explain
that you're the onlythat keeps me sane
cause that would really be the kindest thing to doeven though there's no one who is closer to my heart
i can see that i have kept you in the darksometimes i forget sometimes i don't think
to show the things i feel and to tell you what i meen
but there is not a day that ever passed by
that i don't thank god
that i've got you in my life
if you have any doubts of what my love is about
i just wanted you to knowi would'nt blame you if you turned away
but i'd be begging you to stop and stay
your more important to me than i ever
show
so if your thinking i don't care as much
that i don't appreciate your love
well i'd be devistade
sometime i don't think
to show the things i feel and to tell you what i meen
but there is not a day that ever passed by
that i don't thank god
that i've got you in my life
if you have any doubts of what my love is about
i just wanted you to knowi just wanted you to feel what i feel for you
i just wanted you to knowsometimes i forget
sometime i don't think
to show the things i feel and to tell you what i meen
but there is not a day that ever passed by
that i don't thank god
that i've got you in my life
if you have any boubts of what my love is about
i just wanted you to know
sometimes i don't think
to show the things i feel and to tell you what i meen
but there is not a day that ever passed by
that i don't thank god
that i've got you in my life
if you have any doubts of what my love is about

i just wanted you to know
