

Bury Us All

As I Lay Dying

I see them coming with shrouds to bury us all
Before we were, before we were born they shaped our lives
Leading us into an unmarked grave in moments
Moments life could end so I will speak, I will speak while I can This is my chance
My time to stand
(Bury us all) This is my chance
(Bury us all)
My time to stand
(Bury us all) This is my chance
(Bury us all)
My time to stand We may fail alone but that is better
Than dying with them only to be forgotten
I for one would rather suffer now
Than leave this life without passion This is our chance
Our time to stand
(Bury us all) This is our chance
(Bury us all)
My time to stand
(Bury us all) This is our chance
(Bury us all)
My time to stand
