

# With My Hands

Kimbra

Making my amends  
A resurrection  
The needle and the thread  
I'll start with my hands This is your salvation  
Your reincarnation  
I hear them snickering when they smile  
This be my clockwork With my hands  
With my hands Making my amends  
Your broken pieces  
Create the prototype  
And bring you back to life I wanna see you dance  
And take my second chance  
Don't care what they heard  
Just be my clockwork With my hands  
With my hands I can put you back together  
With my own hands  
This time I'll make it better, better, better  
I'll make the people gather  
To see what I've made  
I'll raise you from the dead  
'Cause I don't wanna be alone again Wake up  
(With my hands)  
Wake up  
(With my hands)  
Wake up  
(With my hands)  
Wake up I need a sign of life  
To see a spark inside  
Create the chemistry  
To bring you back to me It's a love electrical  
Almost mechanical  
Let them all run scared  
Just be my best friend I'll put you back together  
With my own hands  
This time I'll make it better, better, better  
I'll make the people gather  
To see what I've made  
I'll raise you from the dead  
'Cause I don't wanna be alone again It's now or never

You're gonna wake up, change my fate again  
Wake up  
This time will be forever and ever and everSuch a frail tether  
Fight the clock hands  
I'll raise you from the grave  
'Cause I don't wanna be alone againWake upI'll put you back together  
With my own hands  
This time I'll make it better, better, better  
I'll make the people gather  
To see what I've made  
I'll raise you from the dead  
'Cause I don't wanna be alone againYou're gonna wake upForever and ever and everWake upI'll raise you from  
the dead  
'Cause I don't wanna be alone againPart of me, a part of you  
A part of youPart of me, a part of you  
A part of youPart of me, a part of you  
A part of youPart of me, a part of you
