

Safe

Olivia Broadfield

Oceans apart, it keeps on breaking my heart
And there's nothing I can do about it
This ache inside it keeps on breaking my stride And I just want to keep you safe (x3)
In my arms tonight Right from the start I knew you'd capture my heart
There was nothing I could do about it
Don't go so far, I like you right where you are And I just want to keep you safe (x3)
In my arms tonight
