All the brothers and the mothers and the lovers
They all sing out!
All the brothers and the mothers and the lovers
They all sing out!

They all sing out!
All the brothers and the mothers and the lovers
They all sing out!
All the brothers and the mothers and the lovers
They all sing out!
All the brothers and the mothers and the lovers
They all sing out!I went swimming in the dark one day

If it's hope that kills me then I won't die
If it's hope that kills me then I won't dieAll the brothers and the mothers and the lovers
They all sing out!
All the brothers and the mothers and the lovers
They all sing out!
All the brothers and the mothers and the lovers

They all sing out!
All the brothers and the mothers and the lovers
They all sing out!
All the brothers and the mothers and the lovers
They all sing out!
