

Because of You

Gene Clark

There's never been a time like this before
Cos when I'm not with you like is such a bore
Now if I feel lonely or I fool blue
I'll know it's because of you. You always tell me things that I want to know
Yet when you went away you never told me 50
Now if ever there's a time I have nothing to do
I'll know it's because of you I'll never see you again
And I know I'll regret it somehow
Can't say that I envy me I'm not exactly myself right now I'll never see you again
And I know I'll regret it somehow
Can't say that I envy me I'm not exactly myself right now
