

Red Dead Revolver

Sparzanza

I got a cold piece of steel
Was immortalized by the way it made me feel
I was afraid to make a deal
With the darkened one and I fell down to my knees
Through the darkness in the shade you'll fade
Red dead revolver
I try to shut my eyes
When I hear your voice inside
We are one, we are one, we are one
And the end is coming closer
You try to tie my arms
'Cause I'm under your control
We are one, we are one, we are one
Red dead revolver I know six ways to die
You got to ask yourself if you really wonder why
You got nowhere to run
So you're staring down the barrel of a gun
Through the darkness in the shade you'll fade
Red dead revolver
I try to shut my eyes
When I hear your voice inside
We are one, we are one, we are one
And the end is coming closer
You try to tie my arms
Cause I'm under your control
We are one, we are one, we are one
Red dead revolver
