

I Heard the Angels Singin'

[Eric Bibb](#)

I went down in the valley one day
I heard the angels singing
I heard a voice, I saw no one
I heard the angels singing
What you reckon the angels said
I heard the angels singing
Your sins is forgiven and your soul is free
I heard the angels singing
I went down in the valley one day
I heard the angels singing to me
I seen an old devil walk down my way
I heard the angels singing
What you reckon the devil said
I heard the angels singing
He said that heaven's door is closed, go home don't pray
But I heard the angels singing
I said get back sit down, get out of my way
I heard the angels singing
I don't wanna hear another word you say
Oh I heard the angels singing
Oh yes, I heard the angels singing
Just when I thought my soul was lost
I heard the angels singing
My dungeon was shook, my chains dropped off
I heard them singing
The people come running, saying what's it all about
I heard the angels singing
The holy ghost hit me, I could not help but shout
I heard the angels singing
When I went down in the valley one day
I heard the angels singing to me
I seen an old devil walk down my way
I heard the angels singing
I said get back sit down, get out of my way
I heard the angels
I don't wanna hear another word you say
Woo! I heard 'em singing
In that great getting up morning
I heard the angels singing to me

In that great getting up morning and I, whoo!
You know I heard the angels, hallelujah!
