Other Side

New Years Day

It looks so easy
being trapped inside this head of mine.
Disturbing dreams, and haunted beings they control my mindDark desires fuel the fire suffocating i can't breath.
Bet you'de love to see me burn, so move aside or come with me.I will always be a tortured soul
Don't fix me up, just let me go.
Come join me if you like
I'll be on the other sideHow did i end up this way?
How did i end up addicted to pain and suffering?
I have sealed my fateDark desires fuel the fire suffocating i can't breath.
Bet you'de love to see me burn, so move aside or come with me.I will always be a tortured soul
Don't fix me up, just let me go.
Come join me if you like
I'll be on the other sideI have a slight confession
I brought this on myself
Will never learn my lesson
I know what i've becomeCome with me..I will always be a tortured soul
Don't fix me up, just let me go.
Come join me if you like
I'll be on the other side
