

Love Like Fire

Hillsong Live

Well, I met her downtown
I think we'd spoken
I think we'd spoken once before
The sound was loud I said, "Yeah", I said, "Yeah, give me more"
And something deep inside
Started engines of desire
And you know there ain't a chance of stopping love Love like fire
Love like fire She was great, so great to be with
I felt so good when she was there
My time was coming at me
And I swore I'd never care And I thought there ain't nothing else
All the poets here are liars
When you're chasing something real
You get burnt by Love like fire
Love like fire I thought she likes the rest
And I know I'm in control
I can take it or I can leave it
You can forget that lovers role The world you thought you knew
Gets strangled by the wire
And you crash while running blind
Destroyed by love Love like fire
Love like fire
Love like fire
