Oh My God

Pink

Put me on the table
Make me say your name
If I can't remember
Then give me all your pain
I can sit and listen
Or I can make you scream
Kiss it and make it better
Just put your trust in me
Oh my God, go a little slower
Oh my God, what was that again?
La da da, let me feel you baby
Let me in 'cause I understand
Let me feel you baby
'Cause I understand
I understand it all, now climb my sugar walls
Problem solved it's dissolved with the solvent known as spit
Lickity lick not so quick it's a slick ride
Make my mink slide 'cause we're all pink inside
This can be really easy
It doesn't have to be hard
Here baby let me show you
I'll have ya climbing up the walls
You got all the problems
I think that I can solve
Why don't you come in here baby?
Why don't we sit and talk?
Oh my God, let me feel you baby
'Cause I understand
Oh my God, go a little slower
Oh my God, what was that again?
La da da, let me feel you baby
Let me in 'cause I understand
Oh my God, go a little slower
Oh my God, what was that again?
La da da, let me feel you baby
Let me in 'cause I understand
Oh my God, let me feel you baby
'Cause I understand
You like the top and the bottom

You made a drop and then caught 'em
And when you rock then you've got 'em
Oh my God 'em, oh my God 'em
Let me feel you baby
'Cause I understand
You like the top and the bottom
You make a drop and then caught 'em
And when you rock then you've got 'em
Oh my God 'em, oh my God 'em
Let me feel you baby
'Cause I understand
I understand, now let's show you where to put that hand
My little red engine says, "I think I can, I think I can"
I got your coochie coo, how 'bout you
I got your coochie coo too
Oh my God 'em
Oh my God 'em
Oh my God 'em
...
