Head Bobs

Black Eyed Peas

I'm hard to handle like bikes with no bars
We excite stores that got even doors
Unlock the heated 'cause they know when I sex well
Left them breathless now they're waiting to exhale
Waiting to exhale with some competitionSo come in and test well
The next one gets hung and chip of a chisel
I'm making chicks sizzle
There's no question to the way I rip the riddle
I'm awesome, I bring on monsoon when I bloom and blossomAnd run over like opossums
Froze on the road with my bike on they cornea
Man I'm warning ya, look, the black eyed peas is formin' up
Ring around your throat that's made up of razor blades
Put the slice and let nice and easy humble daysOn out, over, well known casanova
Can I put on an army, quick to take it over
Nine on my, count all my figures
Money on the street went entertainment
Nowadays brothers are getting paid doing nothingReciting the same line with the lame rhymes
Frontin' rappers actin' like their pops' was orville Redenbacher
They quick to go pop
But when it's time to fiend for the green they flop
We do it from the heart like blood
Create rhymes that flood, and blow up like the Scud missile
Miss out, haYou can bop your head like this, ha
When we're dropping bombs like this, ha
You can bop your head to this, ha
When we're dropping bombs like this, ha
You can bop your head like this, ha
When we're dropping bombs like this, ha
You can bop your head to this, ha
