

Head Bobs

Black Eyed Peas

I'm hard to handle like bikes with no bars
We excite stores that got even doors
Unlock the heated 'cause they know when I sex well
Left them breathless now they're waiting to exhale
Waiting to exhale with some competition So come in and test well
The next one gets hung and chip of a chisel
I'm making chicks sizzle
There's no question to the way I rip the riddle
I'm awesome, I bring on monsoon when I bloom and blossom And run over like opossums
Froze on the road with my bike on they cornea
Man I'm warning ya, look, the black eyed peas is formin' up
Ring around your throat that's made up of razor blades
Put the slice and let nice and easy humble days On out, over, well known casanova
Can I put on an army, quick to take it over
Nine on my, count all my figures
Money on the street went entertainment
Nowadays brothers are getting paid doing nothing Reciting the same line with the lame rhymes
Frontin' rappers actin' like their pops' was orville Redenbacher
They quick to go pop
But when it's time to fiend for the green they flop
We do it from the heart like blood
Create rhymes that flood, and blow up like the Scud missile
Miss out, ha You can bop your head like this, ha
When we're dropping bombs like this, ha
You can bop your head to this, ha
When we're dropping bombs like this, ha
You can bop your head like this, ha
When we're dropping bombs like this, ha
You can bop your head to this, ha
Now check it out like La, la, la
La, la, la
La, la, la My probation over tracks smacks like no other disciples
Riddle the action of satisfaction brought to you be apple
Alligator now, 'bout to take you on a lyrical voyage
And bend your sure form I would saturated fat
The alligat is on the move I rhyme to be exact, not exactly on the groove
Several, wopplers, kinetic
My beat's energetic when reseted
You wonder why, we put our friend who caligetic

So check out the fiery, I'm livin' not misery Supply you with remedies for all these sick whack MC's
 That this is song lurks now, time to go to work
 To senegrate the ignorant, or shall I say the jerk
 Time to contradict now, dig deep to the core
 All I sick can be, but I still rip it raw With the composition, with the position on steady
 I'm ready for the mission of freestylin' acting shitty
 Converse you with the energy enemy I focus on ya
 Every styles you make I will take and break in front of ya
 Irratic gets your presence you've been replaced by my essence The sunshine survive, 'cause that's what we
 produce
 Refuse to take our ability I use
 To bruise up your brain with lyrics
 Like this, ha You can bop your head like this, ha
 When we're dropping bombs like this, ha
 You can bop your head to this, ha
 When we're dropping bombs like this, ha
 You can bop your head like this, ha
 When we're dropping bombs like this, ha
 You can bop your head to this, ha
 Now check it out like La, la, la

 Lovely entertainment's what we enter
 Feel the force, where we enter like splinter
 Black eyed peas be the fools that'll injure
 Whole career and your body will be injured Get dealt quick, and I got one for, uh
 How you like me now
 W I double I rippin' up a style
 That's cool and calm, we droppin' a bomb
 And you can nod your head to the rhythm where we are Some whole new, uh that's well improved
 When I'm over 'cause you know I'ma relax in a rule
 That soothes your body, really really hardcore
 Double, double ta, ta for a while or for raw
 Tap, a, tap a skill, it's the whip appeal then Apple, Apple comin', comin' in with the gill
 Let's rock this set exceed to terminate
 Time to eliminate the whack that you create
 Arm atticulate, when I circulate over tracks
 Let me get down and just relax We gettin' down y'all
 We gettin' down y'all
 We gettin' down like this
 We gettin' down y'all
 We gettin' down Like this, ha

 When we're dropping bombs like this, ha
