[Rachael Yamagata](#)

for worse or for better  
i'd like to see you again  
now or never  
screaming in my head  
before it's settled in stone  
before i leave you alone  
see me as you did long ago take it for shame back to the start  
ships have been lost for less than this and broken apart  
ice on my wings  
a fatal disease  
let's play with them all  
one final walk in the park  
for your infamous heart we can't stay kids forever  
who could bare that much pain  
i've done my time with bad weather  
you've done the same  
we can't keep blaming each other  
or try to rescue this fight  
baby don't try again tonight  
take it for shame back to the start  
ships have been lost for less than this and broken apart  
ice on my wings  
a fatal disease  
let's play with them all  
one final walk in the park  
for your infamous heart  
your heart your heart your heart  
sweetheart i miss you  
sweetheart i miss you
