Strung Out

Toxic Lab Rats

Walking down the street, walking down the street
My ass is showing yeah Iâ€™m not discrete
People stare at me yeah they stare at me
I donâ€™t care about it
Iâ€™m feeling free

What are you looking at what are you looking at
I know Iâ€™m ugly but sure not fat
Walking down the street walking down the street
My head is spinning can't control my feet

Down the gutter
What are you waiting for?!
Strung out
What are you waiting for?!
Gotta put my fucking act together
What are you waiting for?!

I'm awake all day, I'm awake all night
Walking down the street trying to avoid a fight
People stare at me yeah they stare at me
I don't understand why can't they see
That I try so fucking hard yeah I try so hard
To loosen up, to let down my guard
Feeling dead all night, feeling dead all day
Walking down the street trying to find my way
