

Lullaby (Feat. Ladysmith Black Mambazo)

[Josh Groban](#)

Hush now baby don't you cry
Rest your wings my butterfly
Peace will come to you in time
And I will sing this lullaby No though I must leave, my child
But I would stay here by your side
And if you wake before I'm gone
Remember this sweet lullaby And all love through darkness
Don't you ever stop believing
With love forlorn
With love you'll find your way
My love The world has turned the day to dark
I leave this night with heavy heart
When I return to dry your eyes
I will send this lullaby
