

One Way

Naughty Boy

[Intro - Maidaay]

What if the very thing that threatens you, is the very thing that beckons you

Roll up your sleeves, pull down you're hood

Why do all the bad things feel so good?[Hook - Maidaay]

Because theres only one way, one way to fix it

One way, one way to make it better

One way to get out of this place if you want it[Verse 1 - Mic Righteous]

If you want it you can fix it, there's many who have dared,

I tried, I've been inside for twenty two years,

You could lose everything, they could bury you here

Very few leave in a merry mood here

But you never knew I've been in every room here,

I know a few secrets that very few share, but listen

They don't even notice me, a bit of courtesy to clean the dirt you leave

its a one way street can you work with me?

its a five-star suite, something lurks beneath

don't scratch the surface, don't turn a cheek

don't speak of anything you have heard or seen

the lonely ignore you, the more you speak

and don't forget to wash your hands before you leave

there's something fishy in Cabana, maybe its the pirahnas

this place will turn you crazy, think they're saving me for afters a master.[Hook][Verse 2 - Mic Righteous]

Yeah don't forget to wash your hands before you leave round here

We've gotta clean this toilet

Can't sleep or breathe, the heat is boiling

and in between good and evil, don't eat the poison

follow your heart, if you can't beat them, join them

walk into reception, seek employment

There's one way to change if two of us can make it

Why is it the bad things that always feel the greatest?

Bottle of grey goose, you're wearing the same suit

but you don't look as good as you did when you came through
