Call The Doctor

Sleater-Kinney

hmmmmm
She was my girl
My closest friend
My Hunny
The type of girl who go hard for me
She'd be kicking back kind of girl
who don't pretend
You can always catch her hanging with my friends
This girl was all I ever needed
What will i do now that i'm leaving?
It hurts so bad 'cos i was true to her
Now im regretting having anything to do with her
Now my hearts racing
I'm burnin up and im pacing
She was my mrs in the making
Watched her throw it all away
Now my minds playing tricks on me saying that i need her
It's much too late i gotta leave her
No more words left in me to say
Somebody call me a doctor
This is an emergancy
My ladies stepping out on me
My heart stops beating
And now its getting hard to breath
Somebody call me a doctor
This is an emergancy
My babys stepping out on me
My heart stops beating
It's getting a little hard to breath
Oohh i never saw this comin
Got me fooled, yeah she really got me goin
Saw her at the beverly center
With another dude, man she thinks shes clever
When she said she was out with her friends
I saw her talking and holding his hand
I guess its like a kick to the face
What did i ever do for you to treat me this way

Now my hearts racing

I'm burnin up and im pacing
She was my mrs in the making
Watched her throw it all away
Now my minds playing tricks one me
Saying that i need her
It's much too late
I gotta leave her
No more words left in me to say
Somebody call me a doctor
This is an emergancy
My ladies stepping out on me
My heart stops beating
And now its getting hard to breath
Somebody call me a doctor
This is an emergancy
My babys stepping out on me
My heart stops beating
It's getting a little hard to breath
I guess i gotta just walk away
The doctor said there aint no medication for my pain
So im done, baby im gone
I guess i gotta just walk away
Cos theres nothing that can take away the pain
Woahh oahhh
So im gone baby
Somebody call me a doctor
This is an emergancy
My ladies stepping out on me
My heart stops beating
And now its getting hard to breath
Somebody call me a doctor
This is an emergancy
My babys stepping out on me
My heart stops beating
It's getting a little hard to breath
