

# Telepathic Love (The Alien Boy EP)

## Wipers

Send a message via telepathic line  
Send it cause I'm feeling so deprived  
But I can't get through  
What am I gonna do  
Could you tell me something without saying a word  
Touch me once without being too observed  
Could you give me something without giving a blink  
Telepathic, band  
Telepathic, band  
Send a message via telepathic  
Send it now  
Don't make it tragic  
But if I can't get through...  
What am I gonna do?  
Could you tell me something without saying a word  
Touch me once without being too observed  
Could you give something without giving a blink  
Telepathic band
