Kiesza

Ooh ooh this is why I'm giving
This is why I'm giving
This is why I'm giving
Ooh ooh this is why I'm giving
This I why I'm giving
This is why I'm giving

I'm under your fire
You got me burning up
Inside yeah
You use my desire
Against me how could
I deny it
You consume me with
Your love attacks boy
Blow my pride away
And smile about it
should be running but
I can't hold back boy
Filling up my emotions
You're still giving up to me
Or giving up to you
Cause I can't use my lonely heart against you
These feelings that I bleed
They're finally to lose
But if it must be warned
I'm falling for you

Ooh ooh this is why I'm giving
This is why I'm giving
This is why I'm giving
Ooh ooh this is why I'm giving
This is why I'm giving
This is why I'm giving

You left me defenseless
Explosions going off inside yeah
No shiver my senses
My gorgeous case when we collide

You consume with your love attacks boy
Blow my pride away
And smile about it
Should be running but
I can't hold back boy
Filling on my emotions
You're still giving up to me
Or giving up to you
Cause I can't use my lonely heart against you
These feelings that I bleed
They're finally to lose
But if it must be warned
I'm falling for you

Ooh ooh this why I'm giving
This is why I'm giving
This is why I'm giving
Ooh ooh this is why I'm giving
This is why I'm giving
This is why I'm giving

You know my weakness
Always has been you
There's no sh*t that I can use
Losing control has never felt so good
I surrender me to you
You're still giving up to me
Or giving up to you
Cause I can't use my lonely heart against you
These feelings that I bleed
They're finally to lose
But if it must be warned
I'm falling for you

Ooh ooh this why I'm giving
This is why I'm giving
This is why I'm giving
Ooh ooh this is why I'm giving
This is why I'm giving
This is why I'm giving
