

# I Could Make You Care (From "Ladies Must Live")

Frank Sinatra, Tommy Dorsey and His Orchestra & To

I could make you care if only you'd let me, I  
could make you care, you'd never forget me, I  
can't resist, I'd be a fool to try, I know if once  
we kissed, I could kiss my heart goodbye. I knew  
this was love the moment I found you, So I planned  
my life, it's built all around you, Give me this  
chance, darling if you only would, I could make  
you care, I know I could.
