It's About Us

Rotersand

Another crash
Just like before
Another bore
No need to leave your chair

Another flash
No aftershock
Rewind the Clock
Why should you even care?

Don't you think you've had enough
Of living easy, playing tough

Its about us
Its about us

Don't you think its about time
For a shift of paradigm

Its about us
Its about us

Buzzing 'round the flame
Buzzing 'round the flame

Its just a crack
But it will last
Its growing fast
Its bound to break the rules

So fly your flag
Take up a stand
And grab your chance
To sail this ship on through

Another Crash...
Another Crash...
