Anytime

Neil Finn

I see a dog upon the road
Running hard to catch a cat
My car is pulling to a halt
The truck behind me doesn't knowEverything is in the balance
Of a moment, I can't control
And your sympathetic strings
Are like the stirrings in my soulI could go anytime
There's nothing safe about this life
I could go anytimeFind the meaning of the act
Remember how it goes
Every time you take the water
You swim against the flowThe world is all around us
The days are flying past
And fear is so contagious
But I'm not afraid to laughI could go anytime
There's nothing safe about this life
I could go anytimeAnytime
(Come without warning)
Anytime
(It could be so easy)A walk in the park
(Or maybe when I'm sleeping)
Anytime
(See the clouds come over)Rain or shine
(I make you so unhappy)
Let's make it rightI feel like I'm in love
With a stranger I'll never know
Although you're still a mystery
I'm so glad I'm not aloneI could go anytime
There's nothing safe about this life
Make it so easy to fly in the nightI could go anytime
There's nothing safe about this life
I could go anytime
I could go anytime
