

# Hands of Seduction

Billy Squier

Love...it's that one big step you take  
Eyes...watchin' every move you make  
When the fear lifts you up...you won't back down  
...be careful what you say  
Beware of the dark...they'll steal your heart away  
It's illogical...psychological...  
It can change your world--make it all work out  
...so illogical...Hands of seduction...hands of seduction  
Hands of seduction...workin' workin' overtime  
...hands of seduction  
Crimes of the heart are hard to take  
Lies can't defend your first mistake  
When you're vulnerable...it's improbable  
You can face your world--make it all work out  
...you're so vulnerable...Hands of seduction...creepy fingers through your mind  
Hands of seduction...  
Hands of seduction...workin' workin' overtime...  
Hands of seduction  
It's illogical...psychological...  
It can change your world--make it all work out  
...it's illogical  
Hands of seduction...know the secrets in your mind  
Hands of seduction...  
Hands of seduction...workin' workin' overtime...  
Hands of seduction...So you say you owe the sands of time  
If you don't look now your life won't lie  
Jack and jill conquered the hill...  
But even still they had to pay the bill  
For their father's sins  
Like a poor boy...(say) you just can't win  
In the hands of the devil there's double trouble  
You got it comin'...no use in runnin'  
Said I've always known there's a price you pay...  
Like when I see you babe  
I wanna take you all the way...all the way...  
To a place you've never known  
Beyond your heart...beyond a home...  
Way beyond your shame..Your hands seduce me
