Down on Me

No One

Is all this talk about me
the anger aimed at me
keep prying to get in my head
push till my brain is deadEverything is coming down on me
everyone has waited long to see
lack of control eats you
testing you, pressing youCareful don't push me
over the boundariesIt's coming down on me
the faces staring at me
it's coming down on me
the pressure's talking to meWill I ever find my way out
the time is running down
I'm beginning to lose my patience
snap at my own defenseI can feel tension when I breathe
I can feel the reage hostilityPouring my worn soul out
shouting out! screaming out!Now that you've
pushed me over the boundariesIt's coming down on me
the faces staring at me
it's coming down on me
the pressure's talking to meIt's coming down on me
the fingers pointing at me
its coming down on me the pressures tearing at mei feel the pressure
its coming
coming
coming downIt's coming down on me
the faces staring at me
it's coming down on me
the pressure's talking to meIt's coming down on me
the fingers pointing at me
its coming down on me the pressures tearing at mecoming down on me (5x)
