

(So You) Wanna Be a Star

Chiliwack

You got a way of gettin' around
Movin' around from town to town
Startin' to build a reputation
The word is always gettin' around You go that look from head to toe
They know your style wherever you go
They're watchin' you with anticipation
You're walkin' around like you stole the show So you wanna be a star
All the world knows who you are
So you wanna drive 'em crazy
So you wanna be a star You know that all the world's a stage
You've read the script, page for page
You picked the part you wanted to go for
And now you're really all the rage So put it together, put it together
Blow the roof right off the place
Today is gone but that doesn't matter
Alright you're in the race So you wanna be a star
All the world knows who you are
People come from near and far
They think you're number one, a true phenomenon
The very best they've ever seen, so far So you wanna be a star
All the world knows who you are
People come from near and far
They think you're number one, a true phenomenon
The very best they've ever seen, so far
