

# Daylight

## Pel Mel à€ž

Well, looks like I'm going again  
I can't seem to believe myself  
Here I go again, here I go again, here I go again  
    Listen to me now  
    It's five o'clock a.m.  
    But the party is still going strong  
    There's a conversation over in the corner  
        Big Ed is all on the lawn  
        And the FM music is groovin'  
    Folks getting down, getting down in their stocking feet  
        Sleepy eyes are peeping  
        From the window across the street  
    And it looks like daylight gonna catch me up again  
        Gonna catch me up again  
    Most people like getting up when I'm just getting in  
        Oh, it's the only, only time  
        It seems to be the only time that I can unwind  
        Swore to myself  
        Time and time and time again  
    That I would give up the night life and start layin' in  
        But it ain't easy, no no  
        Sayin' no to my friends  
        'Cause the real, 'cause the real  
        Set don't get started  
        Till everyone else is in  
    And it looks like daylight gonna catch me up again  
        Gonna catch me up again  
    Most people like getting up when I'm just getting in  
        It's the only, only, only, only time  
        When I can unwind  
        Daylight gonna catch me up  
        Gonna catch me up  
        Daylight gonna catch me up again  
        Daylight gonna catch me up  
        Gonna catch me up  
        Daylight gonna catch me up again  
        Daylight gonna catch me up  
        Gonna catch me up  
        Daylight gonna catch me up again
