

Keep Me Comin'

Kiss

Ooh, yeah I know what you're like, you're not sleepin' at night
I know you're losing control
I know your plans, where you're keeping your hands
I know it's taking its toll Sweet little innocent girl
Making your way in this world
Something you're feeling tonight
Tells you what's wrong and what's right You gotta keep me comin', keep me comin'
(Keep me comin', keep me comin')
You gotta keep me comin', whoa, keep me comin', babe
(Keep me comin', keep me comin') Ooh, yeah Hands on my shoulders now, you're getting bolder
Your fears are slipping away
Each little bite lets me know that you're ripe
You're thinkin', maybe you'll stay Now that you're burning to know
How far you're willing to go
Now that it's under your skin
Now that you're lettin' me in You gotta keep me comin', keep me comin'
(Keep me comin', keep me comin')
You gotta keep me comin', whoa, keep me comin', babe
(Keep me comin', keep me comin') You gotta keep me comin', you gotta keep me comin'
(Keep me comin', keep me comin')
You gotta keep me comin', whoa, keep me comin', babe
(Keep me comin', keep me comin') Ooh yeah, comin', comin', ooh, whoa whoa
Ooh yeah, right here, right now You gotta keep me comin', keep me comin'
(Keep me comin', keep me comin')
You gotta keep me comin', whoa, keep me comin', babe
(Keep me comin', keep me comin') You gotta keep me comin', you gotta keep me comin'
(Keep me comin', keep me comin')
You gotta keep me comin', whoa, keep me comin', babe
(Keep me comin', keep me comin') You gotta keep me comin', comin', comin'
(Keep me comin', keep me comin')
You gotta keep me comin', yeah
(Keep me comin', keep me comin') Right here, right now, right here, right now
(Keep me comin', keep me comin')
Right here, right now, right here
(Keep me comin', keep me comin') Keep me comin', comin', comin', comin'
(Keep me comin', keep me comin')
