

No Regrets

Dope

Going down
But elevated, separated, and liberated
Down
But dedicated, medicated, and celebrated Over and over I keep losing myself
Lower and lower I keep sinking
Over and over I keep taking myself down With no regrets for anything I did
And I won't forget to do it all again
With no regrets, I got no regrets Going down
I'm frustrated, aggravated, obligated
Down
I'm suffocated, complicated, it's over rated Over and over I keep abusing myself
Lower and lower I keep sinking
Over and over I keep beating myself down With no regrets for anything I did
And I won't forget to do it all again
With no regrets
I got no regrets
With no regrets for anything I did
And I won't forget to do it all again
With no regrets, I got no regrets Over and over I keep using myself
Lower and lower I keep sinking
Over and over I keep beating myself down Going down
But elevated, separated, and liberated
Down
But dedicated, medicated With no regrets for anything I did
And I won't forget to do it all again
With no regrets
To do it all again with no regrets
I got no regrets
I'll do it all again with no regrets I'm elevated, liberated
With no regrets
I'm elevated, liberated
