

Call It Love

Poco

We've got all night, let's take our time
Tell me your secrets, I'll tell you mine
When it makes us feel better, call it love You say you won't, I say you will
You make me crazy but I want you still
When it makes us feel better, call it love Do we tell the truth or do we live a lie?
Is the feeling good? Is that what makes you cry?
When you say those words, look me in the eye
Tell me why you call it love? I play my hand, you call my bluff
We push each other till we've had enough
When it's all you've got, call it love If I didn't have money, would you want me still?
When you look real close, do we fit the bill?
Call it what you want but only time will tell Do we tell the truth or do we live a lie?
Is the feeling good? Is that what makes you cry?
When you say those words, look me in the eye
Tell me why you call it love? We've got all night, let's take our time
Tell me your secrets, I'll tell you mine
When it makes us feel better, call it love Call it love, call it love, call it love
When it's all you've got, call it love
