

Find You (feat. Lil Wayne & K CAMP)

Plies

I'da seen some pretty ones that come from the North
I'da seen some gorgeous one that come from the West
I'da seen some bad ones that came from the East
But I can't lie, I love them girls from the 305, 305
I'da seen some pretty ones that come from the North I'da seen some gorgeous one that come from the West
I'da seen some bad ones that came from the East
But I can't lie, I love them girls from the 305, 305 I'da seen some pretty ones that come from the North
I'da seen some gorgeous one that come from the West
I'da seen some bad ones that came from the East
But I can't lie, I love them girls from the 305, 305 I'da seen some pretty ones that come from the North
I'da seen some gorgeous one that come from the West
I'da seen some bad ones that came from the East
But I can't lie, I love them girls from the 305, 305
I'da seen some pretty ones that come from the North I'da seen some gorgeous one that come from the West
I'da seen some bad ones that came from the East
But I can't lie, I love them girls from the 305, 305
