

# I'm Just Another Soldier

## The Staple Singers

You know I'm just another soldier in the army of love  
I'm just another soldier in the army of love  
Hut two three four; crying sometimes as I go  
I'm just another soldier in the army of love Now hate is my enemy; I gotta fight it day and night  
Love is the only weapon with which I have to fight  
I believe if I show a little love for my fellow man  
Then one day I'll hold the victory in my hand That's why I'm just another soldier in the army of love  
I'm just another soldier in the army of love  
Hut two three four; crying sometimes as I go  
I'm just another soldier in the army of love Now martin, john, and bobby once fought here by my side  
But the captain called then to that command post in the sky  
This army needs you my friend, this army needs me  
And I believe if we all get together right now hatred would cease to be  
That's why I'm just another soldier in the army of love  
I'm just another soldier in the army of love  
Hut two three four; crying sometimes as I go  
I'm just another soldier in the army of love
