Seasons

The Veer Union

back and forth you wonder
through your mind
winters passing over
but it wont find youtake what you can
change the seasonsisolate yourself and
you will find
there's no rhyme or reason
that it wont find youtake what you can
change the seasons
the changing of the seasons is here now
the changing of the seasons is here now, is here nowback and forth you wonder
through your mind
winters passing over
but i don't mindpressure that you're under
will subside
there's no time to ponder
cuz it wont find youtake what you can
change the seasons
the changing of the seasons is here now
the changing of the seasons is here now, is here nowand i will find you
although i wonder
if i will climb through
this rock im underim turning the page for something new
im finding my way through life in bloomthe changing of the seasons is here now
the changing of the seasons is here now, is here now
is here nowim turning the page for something new
im finding my way through life in bloom.
