Lifetime

Shanti

sometimes i go crazy sometimes i sleep all day sometimes i don't know if i can make it but i make it anyway yeah i make it anyway sometimes i look outside and wonder if the sun will rise sometimes i wonder how far i'll run before i fall, it doesn't matter at all it takes time to live a lifetime it takes time and i'll be fine i'll be fine sometimes i just can't sleep and sometimes i trip over my feet sometimes are better than others but i'll make it anyway, yeah I'll make it anyway chorus now when you face a dead end and the walls are closing in you can't give up you've gotta start again sometimes i feel so lost and i turn to you and you say the right thing you tell me "you know what?" "we'll make it anyway" "yeah we'll make it anyway" chorus
