Until You Come Back

Whitney Houston

I lost my heart a long time ago
You made me feel like no one had before
Boy you made me love you then you walked out the door
See I will not rest until you say I am forever yoursAnd boy I won't stop at nothing, I won't give you up
And you've gotta feel something, I know
I will not love again until you come back, come back to my arms
Till you come back to me baby, until you come backDon't care how long baby, it's not important to me
Don't care how far, love's never too far for me, no it ain't
I just might be crazy when it comes to my heart
But I can not rest until the day we're no longer apartAnd boy I won't stop at nothing, I won't give you up
And you've gotta feel something, I know
I will not love again until you come back, come back to my arms
Till you come back to me baby, until you come back to meNobody plays with my heart
You can't walk away from it all
You can run but your heart cannot hide
'Cause it knows you belong in my lifeAnd boy I won't stop at nothing, I won't give you up
And you've gotta feel something, I know
I will not love again until you come back, come back to my arms
Till you come back to me baby, until you come back to meTill you come back to me baby
Come on home, come home to me
