# Sleep My Angel

## Howard Jones

Sleep my angel it is time for bed
I will be there to watch over you
I'll protect you from the world
And the voices in your headI'll be with you
With my life I will defend
I'll be with you
I will be there in the endAnd I'll cry your tears
As you feel every pain
Coax out the sun
From the endless rainThought I'd never feel
So much love for another
I'll be with you
I will be there in the endLove that is there
Through the false and the real
Love that desires
No reward and no gainAs I hold your tiny hand
You'll never know how I feel
There's a promise, with my life I will defend
I will be there with you till the endAnd I'll cry your tears
As you feel every pain
Coax out the sun
From the endless rainThought I'd never feel
So much love for another
I'll be with you
I will be there till the endAll that potential bursting inside
Let me help you on your journey
Let me help you with lifeI will be there with you till the end
