Inside

New Buffalo

InsideGotta get away so I can write some more
TV on and record playing, what's it for
Career move is watching you travel farWatch a building being built, the pieces are
Replacing what's missing inside your heart
In the distance dying on your bedroom floor
Playing songs I used to knowGonna get my things and take them down
Gotta find a friend and move around
I'm not satisfied with staying here
Playing what seems pretty clear
I'm gonna get my things and take them down (It's alright)
Gotta find a friend and move around
I'm not satisfied with staying here (Here we are)
Playing what seems pretty clear
I'm gonna get my things and take them down (Inside)
Gotta find a friend and move around
I'm not satisfied with staying here
Playing what seems pretty clearSending letters back and forth
What can we do
Here's a mountain and a heartbeat
Just for you
Situation tells me that we're going to
Even if we have to payGonna get my things and take them down
Gotta find a friend and move around
I'm not satisfied with staying here
Playing what seems pretty clearIt's alright
Here we are
InsideIt's alright (It's alright)
Here we are (Here we are)
Inside (We're inside)
(We're alright)It's alright
Here we are
We're inside
We're alrightIt's alright (It's alright)
Here we are (Here we are)
Inside (We're inside)
(We're alright)It's alright (It's alright)
Here we are (Here we are)
Inside (We're inside)
(We're alright)
