

# Strayed Away

Terry Dexter

Why don't you communicate?  
I thought that everything was ok  
But something ain't right between us  
I see a little frown on your face  
Communication is the key  
With you is where I wanna be  
So tell me what's on your mind  
If you let me know we can work it out

It seems your love has strayed away  
I never meant to cause you pain  
It seems your love has strayed away  
Will I see you again? (Seems your love)  
It seems your love has strayed away  
I never meant to hurt you baby (no, no, never)  
It seems your love has strayed away  
Will you ever love me again

Boy you really got me thinking  
Did I show you enough attention  
Coz it's true that I get so...  
"Gotta end up doin' what a gotta do"  
Just let me know if there's a problem  
If so I pray that we can solve them  
Coz after all is said and done  
There's no other man for me  
You're the only one

It seems your love has strayed away  
I never meant to cause you pain  
It seems your love has strayed away  
Will I see you again? (Seems your love)  
It seems your love has strayed away  
I never meant to hurt you baby (no, no, never)  
It seems your love has strayed away  
Will you ever love me again

Nah nah nah  
Eyou eyou  
Nah nah nah

Eyou eyou  
See you again

Nah nah nah  
Eyou eyou  
Nah nah nah  
Eyou eyou  
See you again  
Ever love you again

It seems your love has strayed away  
I never meant to cause you pain  
It seems your love has strayed away  
Will I see you again? (Seems your love)  
It seems your love has strayed away  
I never meant to hurt you baby (no, no, never)  
It seems your love has strayed away  
Will you ever love me again
