

Alone In December

[Becky G](#)

See the first snow fall to the ground
It just don't feel right when you're not around
Supposed to be the happiest time of the year
Well just ain't that for me
Wrapped up in my winter coat, walking down the street
Trying not to hide on every couple that I see
The only thing that I got on my list, is you here with me, yeah I don't wanna be alone in December
I don't wanna tell before Christmas eve
And I got so many presents to send you
Please come back to me,
I'll be right here next year
Baby I'll wait for you, so won't you wait for me
I'll be right here next year
Baby I'll wait for you, so won't you wait for me
I'll be right here next year
Baby I'll wait for you, so won't you wait for me
I'll be right here next year
Baby I'll wait for you, so won't you wait for me
Every other holiday, I was by your side
I would give em all away to have a silent night
Spoused to be the jolliest time of the year
But it just ain't for me, no
Carolers are singing I just wanna hold your hand
Not having you here with me is more that I could stand
Hoping that's right, pick me up when I land I don't wanna be alone in December
I don't wanna tell before Christmas eve
And I got so many presents to send you
Please come back to me,
I'll be right here next year
Baby I'll wait for you, so won't you wait for me
I'll be right here next year
Baby I'll wait for you, so won't you wait for me
I'll be right here next year
Baby I'll wait for you, so won't you wait for me
I'll be right here next year
Baby I'll wait for you, so won't you wait for me.
