Good

The Dodos

In my head, it's all been laughter;
In my head, it's all been laughter;
In my head, it's all been laughter!
Could you be certain?
What you've been searching?
Won't be late
What you've been hoping
Could leave you broken
Don't be late
Cause even when your cries stop
They belong to break in two
Cause even when your cries stop
In my head, it's all I'm after;
In my head, it's all I'm after;
In my head, it's all I'm after!

Could you be certain?
What you've been searching?
Won't be late
What you've been hoping
Could leave you broken
Don't be late
Cause even when your cries stop
They belong to break in two
Cause even when your cries stop
Wouldn't cut you off or even if I could
Conviscate your love or leave it when I should
You got a big heart maybe start thinking return
Is it better to be on or be good?
Couldn't cast you off or nobody's that good
Conviscate your love or leave it when I should
You got a big heart maybe start thinking return
Is it better to be on or be good?
