Big Sky

Garrison Starr

I wanna to see what you see
A special kind of beauty
You give yourself up so easily
When you see what you seeI wanna hear what you hear
A harmony loud and clear
Custom made for your ear
When you hear what you hearAnd from take-off to landing
All stretched out and calling
From take-off to landing, I realize
Shes a big sky
Hey nowIf I could stand where you stand
Huddle as close as I can
I might get something secondhand
If I could stand where you standIf I could hold what you hold
Forget the things I dont know
Easier said than done, though
Until I hold what you holdAnd from take-off to landing
All stretched out and calling
From take-off to landing, I realize
Shes a big sky
Hey now
Hey now now now now now now, yeahWere in trouble now
What if we may have seen too much to ever come back downAnd from take-off to landing
All stretched out and calling
From take-off to landing, I realizeFrom take-off to landing
All stretched out and calling
From take-off to landing, I realize
Shes a big sky
Shes a big skyOh yeah
Shes a big sky
Hey now
Hey now
Yeah yeah yeahHey now
Hey now
