Reminder

The December Sound

Don't let me darken your door
It's not what I came here for
No, it's not what I came here for
And I won't hear you cry when I'm gone
I won't know if I'm doing you wrong
I never know if I'm doing you wrong
A constant reminder of where I can find her
A light that might give up the way
Is all that I'm asking for without her I'm lost
Oh my love, don't' fade away

So I watched the world tear us apart
A stoic mind and bleeding heart
You never see my bleeding heart
And your light's always shining on
When I've been travelling oh so long
I've been travelling oh so long
A constant reminder of where I can find her
A light that might give up the way
Is all that I'm asking for without her I'm lost
Oh my love, don't' fade away
Oh my love don't fade away
