

# Guided by a Voice

## Feeder

I don't wanna get drunk  
Forget about the memories  
I just wanna heal that  
Aching inside I just can't be lonely  
Guided by a voice  
I just won't be broken  
Knowing that I have a choice Maybe it's time to make you  
Feel that you still belong  
Maybe it's time to set things free It's our time, so think about it  
I know you wanted to  
It's our time, so think about it  
Can't live without it  
I dream about us now Sentimental values  
Water under the bridge  
Voices of a nation  
Echo in my head I just can't be lonely  
Guided by a voice  
I just won't be broken  
Knowing that I have a choice Maybe it's time to make you  
Feel that you still belong  
Maybe it's time to set things free It's our time, so think about it  
I know you wanted to  
It's our time, so think about it  
Can't live without it  
I dream about us now Just can't wait  
Can't keep this silent  
I just can't wait  
Can't keep this silent I just can't be lonely  
Guided by a voice  
I just won't be broken It's our time, so think about it  
I know you wanted to  
It's our time, so think about it  
Can't live without it  
I dream about us now  
I dream about us now I just can't wait  
Can't keep this silent
