Never Surrender

Combichrist

Self medicating, craving punishment
Blaming myself for a world on fire
No more shame, no more pity
No more
We rise from the ashes

I will suffer
I will burn
Let hate prevail
Enslave my soul
But i'll never surrender

Silent words from a bleeding mouth
Swallows pride with a swollen tongue
Everything is nothing, life in shallow grave
Too ashamed to feel joy life collecting dust
No more shame, no more pity
No more
We rise from the ashes

I will suffer
I will burn
Let hate prevail
Enslave my soul
But i'll never surrender

I will suffer
I will burn
Let hate prevail
Enslave my soul
But i'll never surrender

Mental cancer hijacks your brain
Denying the reality you created for yourself
We rise from the ashes

I will suffer
I will burn
Let hate prevail
Enslave my soul

But i'll never surrender

I will suffer
I will burn
Let hate prevail
Enslave my soul
But i'll never surrender

Never surrender
Never surrender
Never surrender
Never surrender
Never surrender
Never surrender
Never surrender
Never surender
