My World

Metallica

The motherfuckers got in my head
Trying to make me someone else instead
It's my world now, it's my world now
It's my world, it's my world
Why's it raining in my room?
Cheer up boy, clouds will move on soon
Heavy fog got me lost inside
I'm gonna sit right back and enjoy this ride
It's my world, you can't have it
It's my world, it's my world
It's my world, you can't have it
It's my world, it's my world
It's my world, you can't have it
It's my world, it's my world
It's my world, suck it
I'm out my head, out my head
Get 'em out my head, out my head
Get 'em out
Who's in charge of my head today?
Dancing devils in angels way
It's my time now, it's my time now
It's my time, yeah, it's my time
Look out motherfuckers here I come
I'm gonna make my head my home
The sons of bitches tried to take my head
Tried to make me someone else instead
Ooh, it's my world, you can't have it
It's my world, it's my world
It's my world, you can't have it
It's my world, it's my world
It's my world, you can't have it
It's my world, it's my world
It's my world, suck it
Ooh, yeah, I'm out my head, out my head
Get 'em out my head, get 'em out my head
Get 'em out
Only do I not know the answer
I don't even know what the question is
Only do I not know the answer

I don't even know what the question is
God it feels like it only rains on me
God it feels like it only rains on me
(Like it only rains on me)
God it feels like it only rains on me
(Like it only rains on me)
God it feels like it only rains on me
(Oh God, oh God, oh God like it only rains on me)
Only do I not know the answer
I don't even know what the question is
Only do I not know the answer
I don't even know what the question is
Sucker
Out my head, out my head
Out my head, get 'em out
Out my head, get 'em out
Enough's enough, enough's enough
Enough's enough, enough's enough
Enough's enough, enough's enough
Enough's enough, enough's enough
Suck
